 Aadarshvelu

## SKILLS

- React.js
- Python
- Django
- MySQL
- AWS
- Node.js
- MongoDB
- Typescript
- Data Science

## CERTIFICATION

### AWS Certified - Solutions Architect

FEB - 2023`

## EDUCATION

### Vistas University

BSc - Cyber Security

Sep - 2020 ~ May - 2023`

## PROFESSIONAL SUMMARY

- Embarked on a transformative journey as a software engineer at age of 18, I have cultivated a profound vision for the tech industry. Over the years, my passion has fueled a relentless pursuit of knowledge and innovation.
- From coding to problem-solving, each experience has shaped my expertise. With a clear vision, I navigate the dynamic tech landscape, embracing challenges and evolving alongside emerging technologies.

## WORK HISTORY

### Technical Consultant - Vizhaa

JUN 2023 - current, Part-time ( Remote )

- Contributing as a technical consultant for AWS and implementing optimal cloud solutions.
- Contributing as Front-end developer to build mobile first application.
- Did an AWS migration of moving images from Mysql to s3.

### Senior Full-Stack Developer - SM Technology

FEB 2022 - current, Full-time ( Remote )

- Created optimal packages containing business modules that can be plugged into new projects seamlessly, eliminating drastic development work and decreasing new project timelines, which helped to acquire new partners.
- Developed a new design system for the company.
- Developed a Control center for the support team.
- Managing and training the junior engineers.

### Junior Software Developer - Pay Perform

JUN 2020 - FEB 2022, Full-time - Chennai

- Developed a detailed reporting UIs for stakeholders to look into the current activities and business summary.
- Contributing to the company's design system by integrating the Antd component library, ensuring uniformity across all projects.

## PROJECTS

*Collaborative and Fun Way To Learn Data Structures and Algorithms :*
